23.5 cm

- ✓ Suitable for concrete, fibreglass and vinyl lined pools. Kits for vinyl lined pools and fibreglass pools available.
- ✓ Slotted rim allows water flow to eliminate stagnant water and to aid cooling.
- ✓ Can be used as a suction point, complying with AS2610.
- ✓ Choice of rim colours including: Black, Brown, Grey, Ivory or White.
- ✓ Interchangeable coloured lenses available in blue, green, red, magenta and clear.
- ✓ Simple installation and one screw mounting for ease of service.
- ✓ 18 metres of heavy duty 2.5mm<sup>2</sup> cable to reduce voltage drop and ensure maximum light output.
- ✓ Unique electrical connection, so power cable does not intrude into light cavity - eliminates possible source of water entry.
- ✓ Large lens seal.
- ✓ Extra low voltage  
12 volts, 100watts  
24 volts, 150watts (for replacement of existing lights or export orders)
- ✓ Designed and manufactured in Australia.
- ✓ Spa Electrics Pty Ltd is a fully Australian owned company.
